

Acoustix Gallery fx

Acoustix Forest fx

For very heavy commercial areas within schools, hospitals and general heavy footfall spaces see the new collection of wood designs within Acoustix Forest fx. Visit www.polyflor.com for further details on both new ranges.

HIGH DESIGN FLOORING TO STRENGTHEN INDOOR ACOUSTICS

The new Acoustix Gallery fx collection of authentic wood and stone floorcoverings have been developed to assist in improving the acoustic properties within a wide range of residential and commercial interiors, delivering the necessary performance to exceed the current building regulations, with an impressive impact sound reduction level of 19dB.

Criteria such as aesthetics, hygiene, maintenance, durability, availability, acoustic performance and environmental issues are tackled with Polyflor's new acoustic offer, targeting the key residential, education and healthcare acoustic markets.
