## TYPICAL APPLICATIONS

Washrooms, Toilet areas, Bar Serving areas, Classrooms, Laboratories, Changing rooms.

## SPECIFICATIONS

USE AREA CLASS

GAUGE: 2.0mm

AVAILABILITY: Sheet

Location: Wellington College, Crowthorne

The new Monro pavilion, which complements Wellington College's reputation for sporting success, has been designed and built to provide the very best modern sporting facilities for pupils and visitors. Polysafe Corona PUR was the ideal choice of floorcovering for the pavilion's changing areas in terms of visual quality, slip resistance and cleanliness.

The highly acclaimed sporting centre is enhanced by the use of a safety vinyl flooring range that features Supratec PUR, a specially cross-linked polyurethane reinforcement which makes it easier to clean, keeping the floor looking like new for longer and facilitating easier soil release. Providing these key benefits means that the high levels of mud and dirt entering the changing room on a daily basis can be dealt with and maintained without difficulty.

*"Having specified Polyflor for installation in various projects on the College campus before, we had no hesitation in believing that the high standard required would be met. The team on site took ownership and explored the finer details to produce a master piece for our sporting activities in the future."*
