Akoya 4125

Grey Fusion 4105

Orient Grey 4135

Freshwater 4145

Location: Chaucer Centre, Merton, London

Optimum appearance Polysafe Mosaic PUR has helped transform the cafeteria at the Chaucer Centre, a converted school building now used for meetings and larger seminars. Around 250m² of the decorative Graphite Pearl colourway has been installed throughout the busy dining area to complement the overall refurbishment of the cafeteria.

Mosaic PUR offers vital underfoot safety in an area that is prone to spillages thanks to its high slip resistance, while the incorporation of the super strength Polysafe™ PUR reinforcement makes it easier to clean, providing excellent colour and appearance retention with improved soil release.

"Polysafe Mosaic PUR was an ideal choice for our cafeteria. It looks brilliant, it is easy to clean and it offers great slip resistance - all very important for a busy dining environment."

Mr Ray Curtis
Facilities Manager, Chaucer Centre
